Experience

Fisdrom

May 2023 – Present

SDE-1(Frontend)

Bangalore, India

- Migrated a complex codebase from React version 16 to 18, thus improving the overall UX efficiency as well as the performance of the web platform
- Developed different mutual fund features including MF withdraw, nominee, user account details etc within a given specified time
- Implemented best code practises strategies including using container/view design pattern to make the code as robust as possible along with other optimisations in the code

Futuristic Labs

Oct. 2021 – Apr. 2023

Frontend Engineer

Hyderabad, India

- Launched Klynk Mobile app base version on Google play store ([Link](#)), followed by different version updates, Version 1.1 to Version 1.5
- Developed User Profile, InApp Notifications, Shopping List, MealPlan screens and their respective features on Klynk Mobile app using React-Native, Firebase and RNUI library
- Developed the Device UI app on Riku, an AI-enabled Rice and Curry Maker, used two-way SSL to connect software with hardware using ReactJS, Redux, Material UI, and Websockets

Projects

SaMs Crypto | *ReactJS, Material UI, Firebase* | ([View Project](#))

- SaMs Crypto is a ReactJS based Web app
- The User can authenticate himself with mail or directly sign in with Google to get the latest updates about Crypto Market
- SaMs Crypto comes with a watchlist feature where the user can also add his favourite cryptocurrency to his watchlist

Cinemango | *ReactJS, Material UI* | ([View Project](#))

- Cinemango is a one-stop solution for all the entertainment heads
- It is a Movie and series listing web app with features such as getting all the trending movies and series stuff
- Styled with Material UI, as well as having a feature of pagination, the app also displays the cast and description of your favourite movie (or) series

Convvey | *NodeJS, MongoDB, ExpressJS, SCSS* | ([View Project](#))

- Convvey is a Social Media Webapp
- The User can post different articles, view his friends, like and comment on their posts etc
- Made with Express JS, with SCSS as a styling component and MongoDB as a Database, Convvey also has got Google API for authentication

Skills

- Javascript, C++
- HTML, CSS, ReactJS, ReactNative, NodeJS, ExpressJS, MySQL, MongoDB, Firebase, Git, Github
- Data Structures, Algorithms, REST, Redux, Material UI, RNUI, Jira,

Achievements

- Solved over 400 Problems across various coding platforms
- 2.5* Coder at [Leetcode](#)
- Represented College at IIT Kanpur (Won Smart-Hacks 2020)
- Won public speaking competitions(TEXNEX 19, ORCA 20) while in college

Education

Global Institute of Engineering and Technology

July 2017 – Aug. 2021

Bachelor of Technology in Computer Science, secured an aggregate of 7.6 CGPA
