Education

Global Institute of Engineering and Technology   July 2017 – Aug. 2021

Bachelor of Technology in Computer Science, secured an aggregate of 7.6 CGPA

Experience

Futuristic Labs   Oct. 2021 – Present

Software Developer   *Hyderabad, India*

- Launched Klynk Mobile app base version on Google play store (Link), followed by different version updates, Version 1.1 to Version 1.5
- Developed User Profile, InApp Notifications, Shopping List, MealPlan screens and their respective features on Klynk Mobile app using React-Native, Firebase and RNUI library
- Developed the Device UI app on Riku, an AI-enabled Rice and Curry Maker, used two-way SSL to connect software with hardware using ReactJS, Redux, Material UI, and Websockets
- Built declarative user interface, Recipe onboarding tool on Klynk web platform, along with a dedicated section for individual creators for managing subscriptions and payments related to their content
- Created payment gateway by implementing RazorPay API and used Firebase Cloud Messaging for push notifications

Projects

SaMs Crypto | *ReactJS, Material UI, Firebase* | (View Project)
- SaMs Crypto is a ReactJS based Web app
- The User can authenticate himself with mail or directly sign in with Google to get the latest updates about Crypto Market
- SaMs Crypto comes with a watchlist feature where the user can also add his favourite cryptocurrency to his watchlist
